

8.30-9.20 a.m. Registration

9.20-9.40 a.m. Welcome

9.40-10.55 a.m. Lectures : Session 1 – PET/MRI

9.40-10.05 a.m. Semiquantification of Amyloid load using PET/MR - State of the art (Diego Cecchin Padua, Italy)

10.05-10.30 a.m. Assessing neuroreceptor function with PET/fMRI (Christin Sander, Cambridge, USA)

10.30-10.55 a.m. Five years of brain PET/MRI – Where are we now (Peter Werner, Leipzig, Germany)

10.55-11.20 a.m. Coffee Break and poster session

11.20-12.20 p.m. Oral communications (Session 1)

12:20-1pm Special Lecture

1.00-1.40 p.m. Lunch Break and poster session

1.40-2.55 p.m. Lectures : Session 2 – Dementia

1.40-2.05 p.m. Understanding the time course of Alzheimer's disease using multi-model PET imaging. (Agneta Nordberg; Stockholm, Sweden)

2.05-2.30 p.m. Diagnosing AD: from postmortem to in vivo pathology (Philip Scheltens, Amsterdam, The Netherlands)

2.30-2.55 p.m. Imaging of tau, the missing link between amyloid and neurodegeneration? (Alexander Drzezga, Koln, Germany)

2.55-3.35 p.m. Special lecture (LILLY)

3.35-4.00 p.m. Coffee Break and poster session

4.00-5.55 p.m. Lectures : Session 3 – Movement Disorders

4.00-4.25 p.m. Structural and functional changes underlying mild cognitive impairment in PD (Eric Westman, Stockholm, Sweden)

4.25-4:50 p.m. Premotor and early PD: insight from functional brain assessment (Flavio Nobili; Genoa, Italy)

4-50-5.15 p.m. Covariance determinations in cerebral glucose uptake in patients with neurodegenerative brain diseases (Nico Leenders, Groningen, The Netherlands)

5.15-6.05 p.m. Oral communications (Session 2)

8.00-8.40 a.m. Registration

8.40-10.20 a.m. Lectures : Session 4 – Miscellaneous

8.40-9.05 a.m. Probing the obese brain: focus on neurotransmitter PET (Swen Hesse, Leipzig, Germany)

9.05-9.30 a.m. FDG-PET in Encephalitis and Prionic disease: a clinical opportunity (Javier Arbizu, Pamplona Spain)

9.30-9.55 a.m. Brain networking in neurodegenerative disorders. (Marco Pagani, Rome, Italy)

9.55- 10:20 a.m. New perspectives for functional imaging in DLB (Silvia Morbelli, Genova, Italy)

10.20-10.45 a.m. Coffee Break and poster session

10.45-12.00 p.m. Lectures : Session 5 - Tau

10.45-11.10 a.m. Type and progression of tau pathology in post mortem brain (Charles Duyckaerts, Paris, France)

11.10-11.35 p.m. The Yin and Yang of A β and Tau (Victor Villemagne, Melbourne, Australia)

11.35-12.00 p.m. AV1451 Tau PET in Alzheimer's Disease Spectrum and Non-AD Tauopathies (Gil Rabinovici; San Francisco, USA)

12:00-12.40 p.m. Special lecture (Industry TBD)

12:40-1:10 p.m. General discussion on dementia biomarkers

1:10-1:20 p.m. Award Ceremony (Prizes to the best 5 oral presentations)

1:20-2.00 p.m. Lunch Break and poster session

2.00-3:20 p.m. Oral communications (Session 3)

3:20-3:30 p.m. Conclusions
